

CONFIDENTIAL

12 August 1957

MEMORANDUM FOR: C/PP/AMD/PR

ATTENTION :

SUBJECT :

Request for Recording Tape

REFERENCE :

(a) Memorandum (TS 145634) to C/TSS from C/AMD/PP Staff dated 6 July 1956

(b) Memorandum (TS 118065) to C/AMD/PP Staff from C/TSS/ED dated 9 August 1956

(c) Memorandum to DCI from C/PP Staff dated 27 February 1957

1. On 5 August 1957, [] talked with [] SP&PS/SD/OL, concerning the procurement of Recording Tape for the [] program. In making the tests for System A, several reels will be expended, thus it is requested that AMD provide the following quantities to TSS/Engineering Division: thirty-five (35) reels of $\frac{1}{2}$ -inch wide and twenty-three (23) reels of 1-inch wide one-mil mylar tape on 10 $\frac{1}{2}$ -inch reels.

2. The references cited above indicate the importance of successfully completing this program. This division feels that expenditure of the tape under conditions which very closely simulate actual operating conditions is the only way to provide the extremely reliable system required. It should be pointed out that all reels of tape may not be consumed in tests and any unused reels will be returned.

3. Any questions concerning the use of this tape should be directed to [] on extension []
